3 MILLION TONS OF SHIPPING TO FOIL BLOCKADE

(Continued From Page 1)

their co-operation too, and all the necessary machinery for the vessels can be assembled as fast as they can be turned out at the yards. At more than one plant new ways are already under construction to take care of the government building orders.

The question of labor, however, is giving officials some concern, and a call may be issued appealing for patriotic co-operation by laborers to insure that the campaign against the submarine begin at the earliest possible moment. The shipping board estimates that 150,000 men will be needed to work all the plants to capacity and to complete this building program in the time determined on. This total is nearly ten times the number of laborers now employed in building merchant craft throughout the country.

Volunteers for this class of public service, it is pointed out, need not be experienced in ship building, as comparatively little expert labor will be required for the type of wooden vessels to be built. Within a few days the board will establish a labor bureau to enlist such volunteers. The American Federation of Labor already is co-operating and motion picture companies are planning to display pictures of ship building operations as part of the campaign for labor recruits.

Major General Geo. W. Goethals, builder of the Panama canal, has been selected to supervise the construction program, which is expected to involve within the next year a total tonnage of three million tons, or more than is now building in all the ship yards in the world.

Built for the most part of pine and fir, the ships will range from 2,000 to 3,500 tons. Most of them probably will be equipped with oil burning engines, and all will carry wireless and be armed. The engines will be standardized, as far as possible, so that damaged parts may be replaced abroad, if necessary.

An average cost of about \$300,000 per ship is counted on by the board. Each will carry a crew of about 35 men.

The first of the vessels are to be ready in about six months, and during the year following the number afloat is expected to pass 1,000. Such a number officials believe constantly augmented in the months that follow, will render it absolutely impossible for Germany to maintain her blockade with any degree of effectiveness.

In their calculations the President and the shipping board have had the

RUTH LAW, BACK IN U. S. WANTS TO FIGHT GERMANS IN THE AIR

Ruth Law and her Belgian police dog.

Ruth Law, the world's most famous woman flyer, has returned from France, whither she went to ask permission to fight in the French flying corps. Her request was denied. Now she wants to join the American aviators who will go to France to insure the supremacy of the allies in the air.

advice of allied naval authorities and have computed carefully the ability of the German U-boats to cope with large numbers of merchantmen. They are convinced that by building ships of only 2,000 or 3,000 tons and forcing Germany to pay with a torpedo for each one sent to the bottom, the United States soon can exhaust the resources of the submarine fleet for operating far from its base. The German resources can be still further dissipated by routing the American merchantmen through hundreds of ocean lanes to scores of European ports.

If the blockade running campaign does not actually end the war by destroying Germany's faith in the U-boat, to which her reliance was transferred after hope of decisive victory on land apparently had been abandoned, the administration is confident it at least will thwart the German threat of forcing a nearly peace on the allies through a starving blockade. Officials are fully alive to the dangers to such a peace, which might follow such a peace, and have been fully advised of the allies need of supplies. Although the blockade is considered far from successful they feel that an effective stroke at it and at the campaign of ruthlessness is sure to have a telling effect and to furnish the best means of translating quickly into deeds the nation's great potentialities.

OPPOSE TERMS OF THE ESPIONAGE BILL; WORSE THAN EUROPE

(Associated Press Telegram)
Washington, April 12.—Jane Addams, of Chicago, president of the woman's peace party and others spoke in opposition to the present terms of the administration general spy bill at a hearing before the house judiciary committee.

They contended in general that the bill, as now framed would create a dictatorship in the United States worse than any autocratic conditions abroad.

GERMAN MINISTER GETS PASSPORTS FROM BRAZIL

(Associated Press Telegram)
Rio Janeiro, April 12.—It is believed here that the government will confine for the present to the severance of diplomatic relations with Germany and that a declaration of war will not be issued, at least in the immediate future. A decision as to seizing the German ships in Brazilian harbors has been postponed. The German minister was given his passport at Petropolis last night.

ARREST THREE SUSPECTS.
Chicago, April 12.—Owing to the expected early sailing of the grain fleet from Chicago, largely for Canadian ports, importance was attached today to the arrest of three men found concealed on one of the boats.

FIELD AGENT HERE.
G. F. Aldrich, field agent of the B. & O. and Girls club work in the College of Agriculture at Ohio State University, was in the city today and called on Secretary F. L. Dudgeon of the Licking County Agricultural society with reference to arranging for horse corn contest trips. He will remain until tomorrow.

FOREIGN LABOR HERE.
One hundred and fifty foreigners arrived in town today over the B. & O. railroad, to work on the laying of the pipe line north of the city in the vicinity of where the Mt. Vernon road crosses the B. & O. Fifty of the men came from Chicago this morning and one hundred more arrived this afternoon from Cincinnati.

BIDS OPENED FOR CATHOLIC SCHOOL; WON'T DROP PLANS

Bids for the building of the new St. Francis de Sales school were opened Tuesday morning at 10:00 o'clock at the Hotel Warden and seven bids were received for the new building.

Regret was felt by the committee in charge that more local contractors did not place bids. It seems that a misunderstanding had arisen that the contracts would be granted only to Catholic bidders. Such is not the case however, as the committee will accept the best bid.

Two of the bids have been taken under consideration, and are being gone over by the architects with a view of consulting with the contractors to clear up obscurities.

There has also been a rumor prevalent that the work of soliciting for the new school would be discontinued and that the building would not be erected now owing to the war.

This fact was denied today by Rev. Father B. M. O'Boylan and the committee in charge who say the work will be pushed rapidly now.

Washington, April 12.—To permit Colonel Roosevelt to raise and head a volunteer army of 100,000 men, a resolution was introduced today by Representative Emerson of Ohio.

AMERICA WILL HELP RUSSIAN GOVERNMENT

(Associated Press Telegram)
Washington, April 12.—Efforts of the American government are being directed toward assisting the newly democratized government in Russia to strengthen its position, lessen internal troubles and quickly bring Russia's latent forces to bear against Germany.

Reports to the government say the difficulties of Russia are many and that Germany's principal object is either to bring about a separate peace with that nation, or, failing in that to stir up internal troubles and exert unusual military pressure from without.

ACCIDENTAL EXPLOSION KILLS ARSENAL WORKER

(Associated Press Telegram)
Philadelphia, April 12.—An accidental explosion of powder in the detonating department of the government arsenal at Frankford, a suburb, where ammunition is being manufactured in great quantities, killed Philip McNally and fatally injured Joseph Miller. The two men were the only occupants of the small structure in which they were working. Col. Montgomery, a commandant at the arsenal, said the explosion was purely accidental.

NAVY RECRUITING PARTY IN NEWARK FRIDAY MORNING

Newark men will be given the opportunity to enlist in the service of their country, in their own town beginning tomorrow.

The U. S. Government's naval recruiting party will reach Newark Friday, and will remain in the city until Monday, when every effort will be made to get a 1000 enlistment of men from this county. Newark has an military company and while a number of young men of the city are serving in companies from different towns, it is probable a large number will be anxious to serve during the present crisis in the navy.

The recruiting party will be located on the second floor of the Memorial building, and with patriotism now at its highest ebb undoubtedly a number of men will be signed up during the party's stay in the city.

START REPAIR WORK ON GERMAN STEAMSHIPS

New York, April 12.—Repairs on some of the German liners seized here by the federal authorities upon the declaration that state of war with Germany existed, were begun today by a squad of a hundred mariners under the direction of government experts. The liners were damaged by their British crews when diplomatic relations between the United States and Germany were severed.

KEPT ON JOB BY GRIT AND NERVE

Until Her Work Was Made
Easier For Her.

FOREWOMAN THANKS TANLAC

Miss Rose Bendure, 316 Washington street, Lancaster, forewoman at the Hocking Flint Glass company, is a strong advocate of Tanlac.

It took grit and nerve for Miss Bendure to keep at work feeling the way she did, but now, since taking Tanlac, she's feeling fine, she says. Her improvement has surprised many of her friends.

According to Miss Bendure, the trouble was with her nerves. First she had headaches, and then her sleep was broken at night. Her appetite left her. Nothing tasted good. When stooping over she would get dizzy. Finally she acted upon advice of a friend and got Tanlac.

She is grateful because it helped her and feels it is her duty to tell her experience. Here's what she says: "I suffered from nervousness. During the day I was annoyed by headaches and at night I couldn't sleep soundly. In the mornings I got up tired. My appetite left me. I kept getting worse and worse until my entire system was run down.

"I knew that something had to be done, so when a friend told me how she had been relieved by Tanlac I decided to try it.

"Since taking Tanlac I feel much better. I do not feel nervous, and I sleep soundly at night. My headaches have disappeared. I have a good appetite and enjoy my meals."

Tanlac may be obtained in Newark at W. A. Erman's drug store and in the following nearby towns: Alexandria, C. M. Gilmore; Pataskala, J. R. Strine; Granville, W. P. Ullman; Hebron, Hebron Drug Co.—Advertisement.

WORKING TOGETHER FOR THE SAME GOAL

WYETH RE-ELECTED C. OF C. DIRECTOR; GOOD REPORT MADE

Ralph S. Wyeth was re-elected for two years a director of the Chamber of Commerce by the industrial and traffic bureau at a meeting in Chamber headquarters last night. President F. L. Beggs, W. S. Wetant and others spoke very favorably of the long hours and the deep interest given by Mr. Wyeth.

and the industrial committee to this difficult phase of the work.

Because of the large amount of time that the industrial committee demands, Mr. Wyeth at first declined to serve, but was assured that he would be given strong support and relieved of many of the details that were unavoidable during the first year's program.

The annual report showed among other things that the industrial committee held 54 meetings with attendance of 279, and the traffic committee 23 meetings with attendance of 128. The joint meetings of the bureau were 77, total attendance 407.

WORN NERVES

Nervous troubles, with backache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors.

Mrs. J. O. Patterson, 43 S. Williams Street, Newark, says: "Last fall I suffered severely from pains and lameness across my back. My kidneys were disordered and did not do their work properly. I had a tired, miserable feeling all the time and would get as dizzy and nervous as could be. It was hard for me to do my housework. I bought Doan's Kidney Pills at the City Drug Store and they soon brought me relief."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Patterson had. Foster-Milburn Co., Props., Buffalo, N. Y.

RESERVE FIFTY SEATS FOR BASEBALL OPENING

A block of 50 reservations has been taken for the Newark delegation from the Rotary Club, the Chamber of Commerce, and the Automobile club to the opening ball game of the American Association, at Columbus, Tuesday afternoon. President Frank L. Beggs made the arrangements with the Columbus Chamber of Commerce, which is boosting the opening. Those who desire to attend must notify the Newark Chamber no later than Saturday, as the seats are in demand and will be held no longer than that day. The seats are in the dollar section. First come, first served.

THE ASSOCIATED PRESS.

The Advocate was "scooped" on a very thrilling bit of news Friday evening, namely the declaration of war against Germany by Brazil. We hope our readers will pardon us for failing to publish so important a dispatch but to be honest, the reason it did not find a place in Tuesday's Advocate was because the announcement was not made. A declaration of war had been expected for several days but it did not take place on Tuesday. People are learning more and more every day to depend upon the Associated Press dispatches which appear exclusively so far as Licking county newspapers are concerned in The Newark Advocate. If you see it in the Associated Press it's so. If it isn't there, take the report with a grain or two of salt. The Advocate receives fifteen thousand words by telegraph every day over its own leased Associated Press wire and this newspaper is proud of its membership in this great newsgathering association.

ROOSEVELT.

Col. Theodore Roosevelt has made it clear that he stands squarely behind President Wilson in the proposal to raise a war army on the principle of universal military service. This is the scientific and correct way to proceed. It not only makes a fair distribution of the burden but it prevents favoritism and minimizes incompetency. It is doubtful whether a volunteer army of sufficient size could be recruited promptly and under the volunteer system men without qualification in some instances would be given commissions but not withstanding these objections to the volunteer system we wish some way could be devised to permit Colonel Roosevelt to carry out his desire to lead a division on the firing line in France. The presence of Roosevelt and the American flag in France would be an inspiration. It would help to defeat Prussian absolutism.

Now that Billy Sunday has told New York that he wants none of its money but will give to the Red Cross and the army Y. M. C. A. every dollar that is contributed to him at the close of the New York campaign, what will his opponents have to say? It was the one criticism of Sunday that seemed to have weight and now that he has successfully answered it what remains?

While the Chicago Tribune modestly proclaims itself to be the "world's greatest newspaper," the New York Evening Journal is content to characterize itself as "America's greatest evening newspaper." Oh, well, that's all right. If one hasn't a good opinion of himself, who has?

A Pittsburgh minister, Rev. W. A. Prosser, has been arrested on the charge of discouraging enlistment in the army. "Let our prayer be that if we are drafted we shall solemnly refuse to go," are words attributed to this man. We are thankful that no such sentiment is being given expression here.

Some of the newspapers are saying that Germany's first mistake was in selecting American ports in which to intern her merchant ships. Just what ports would you have suggested? Those around the North Pole are icebound.

THINK IT OVER.
A resolution worth reading and worth heeding is the following written by Mr. R. F. Outcault:
Resolved, That apropos of nothing, let me observe that those who catch little fish use little bait and simply sit and wait. Men who are after big business use big advertising space. They know you can raise more corn on two acres than you can on one. If there is a picture in it more people see it—this is a picture age. Merchants who hire a store and buy a stock and sit and wait will have their shelves half full of out-of-date goods next year, worth only half their value. If you advertise you keep things going and get full prices for new goods.

KILL THE FLIES.
Kill at once every fly you can find and burn his body.
Observers say that there are many reasons to believe there will be more flies this season than for a number of years.
The killing of just one fly NOW means there will be billions and trillions less next summer.
Clean up your own premises; see and insist that your neighbors do likewise.
Especially clean "out-of-the-way-places," and every nook and cranny.
Flies will not go where there is nothing to eat, and their principal diet is filth.

A WAR PRESIDENT.
(Philadelphia Record.)
It is fortunate for the United States that, at this very critical juncture of its affairs, it has in the White House a President who comes of that stock, the so-called Scotch-Irish, that has given to the United States many of its most distinguished fighters. In every war, from the Revolution down, they have been leaders of armies and soldiers in the ranks, and many of the most distinguished Presidents were of that lineage. Individually, Mr. Wilson is distinctly a man of peace, but in all those positions in which he has been brought before the public, as President of Princeton University, as Governor of New Jersey and as Chief Executive of the nation, he has shown, in upholding what he believes to be the right, combative qualities of no mean order. He has not hesitated to antagonize Congress when his principles called for such a course, as in his successful fight to secure the repeal of the Panama Canal tolls act, and he will certainly show no shrinking in his attitude toward Germany.

Lincoln is looked upon as the country's great war President, and it is inevitable that comparisons shall be made between him and the present occupant of the White House. Hitherto Mr. Wilson's pugnacious qualities have been principally shown in his demands for great reforms in domestic matters. Now he enters upon a broader field, in which he will be put to a much severer test. That he will meet it successfully his friends have little doubt. Certainly he has already shown a remarkable grasp of the issues involved and great vigor in making the necessary preparations. His past record makes it clear that politics will play little part in his conduct of the war. The technical questions will be left to the experts of the General Staff of the army and the Naval Board, and the President will look to them for results. His role will be that of leader of his people in a great crisis and as a participant in the settlement of the international questions involved. In discussing this interesting point of the President's ability to carry the tremendous responsibilities now thrust upon him, The Springfield Republican aptly says:
Lincoln's idea, that if he saved the Union, people would forget his mistakes, but that, if he failed to save the Union, 10,000 angels could not turn aside the penalty that would descend upon him, was a true estimate of a war President's position. A sound judgment as of the real objects of the war is primarily essential to ultimate success. Lincoln's judgment was so clearly and definitely formulated that his mind easily grasped the fundamental strategy of military conquest. An English military critic has written within the past few months that the British Government in the summer of 1914 knew as little about war as Lincoln did in the spring of 1861, but that after two years of the present European conflict, he only wished that the British Government had learned as much about war as Lincoln had learned by the summer of 1863.
A successful war president does not need to be a trained soldier; he does not even need to have studied professionally the principles of military science. A statesman from civil life like the elder Pitt, or Calverton or Lincoln—and one might include Bismarck in the list—may so accurately envisage the objects of a war that no soldier may surpass him in his grasp of the war problem. What the nation may expect from President Wilson is a matured judgment, first of all, on the objects of the American participation in the world war, and second, a fixed and unbending determination to see those objects secured. That he already has formulated a judgment appears in his address to Congress. Above and beyond defending the nation's specific rights, "the world must be made safe for democracy." To inspire a whole people and to labor himself toward that end, without wavering, is the mission of our war President.

WHY RELIEF SHIPS ARE SUNK.
(Philadelphia Record.)
To many persons it must appear a deep mystery why the Germans take such apparent pleasure in sinking Belgian relief ships. By an understanding between the belligerent nations such vessels are supposed to be immune from attack by submarines. They are provided with safe conducts by the representatives of the German Government and they carry prominent marks of identification that leave no doubt as to their entirely pacific and humanitarian mission. Upon the cargoes they bear depend the lives of millions of perfectly innocent men, women and children. Yet the Germans torpedo them constantly and under circumstances that leave no doubt as to their deliberate purpose of destruction.
A contemporary seeks to solve the mystery by stating that the relief vessels are sunk because they are in the first place ships and in the second place food ships. The Germans have no interest in destroying the lives of the neutrals on board, and presumably do not desire to starve the Belgians. But the outside world has undertaken to feed Belgium, and for every ship sunk a new ship and another cargo of food must be provided. The German view is that the world's supply both of ships and of food is growing scarce, and that every shipload of grain, enemy or neutral, sent to the bottom intensifies the scarcity. For the same reason Dutch ships carrying grain to Holland are sunk, in violation of all agreements to give them safe passage.
If this explanation is accepted as the correct one it stamps the German Government as one that prefers lying and bad faith to the honorable observance of its pledges. The loss of a neutral ship, with a few thousand tons of wheat, is looked upon as a more important matter than keeping faith with other nations. Plausibility is given to this view by many other acts of the Germans since the beginning of the war. It shows that instead of fighting an honorable enemy the United States has taken up arms against one that regards treachery, the breaking of pledges and lying as perfectly legitimate methods of warfare.

ILLEGAL DEMANDS.
(Ohio State Journal.)
State Auditor Donahey has been at it again, acting the most undemocratic way. He has recently refused to pay \$2,400 extra voted to 43 employees of the Ohio senate; \$705 for mileage for members home after adjournment; \$54.55 traveling expenses for a page, taken with the senate finance committee on their junket to state institutions; and \$186 for group pictures of the house and senate. The state auditor regards these claims as illegal and refuses to audit them. In being so exact and stringent in his view, Mr. Donahey is rendering a good service to the tax-payers of the state. Strange how these old padded bills turn up at the close of every session.

Spirit of the Press
If you don't love the stars in Old Glory,
If you don't love the stripes in the flag,
If you can't be true to the Red, White and Blue,
Go back—Uncle Sam would be glad,
If you think more of a king, czar or kaiser
Than your oath to the flag of the free,
Pack your trunk and your grip and get on the first ship
And sail back again o'er the sea.
—Columbus Dispatch.

One Danger.
The United States government must not permit itself to be made the useful tool of Germany. If it should undertake to fight a little war of its own as a demonstration of its special brand of valor and a proof of its abhorrence of entangling foreign alliances, meantime cutting off or reducing the flow of supplies to the nations which have vast armies struggling hand to hand with the armed might of Germany, it would commit a disastrous error.
—Chicago News.

Sell Little Bonds to Millions.
The United States can borrow 1,000,000,000 in a day. No one can doubt that statement who knows all the facts. But the United States may, before the end of this war, require half a dozen billions. It can easily raise that by a loan also, but to make it really popular the bonds should be sold in small denominations. No other investment appeals to an American with the power of a United States government bond. For generations the very word has been synonymous with absolute security in money matters. Therefore, a government bond put out in such small denominations as \$100, or even less, would rally the financial resources as no other call could do.
—Philadelphia Ledger.

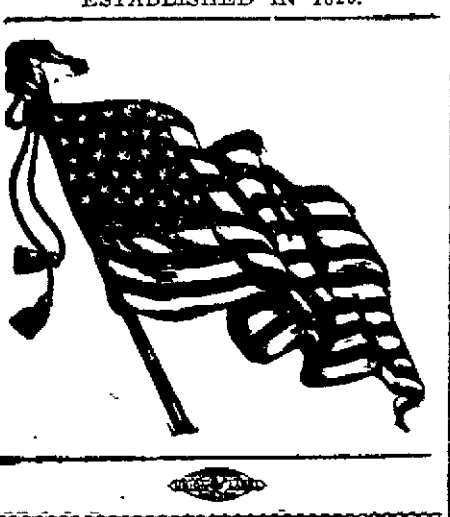

War Revenue.
Whether extra taxes for war purposes to the extent of a billion and three-quarters in a year can be raised without injustice to the business of the country is not entirely certain. But the principle underlying this proposition is perfectly sound: as much revenue as can safely be raised by taxes should be obtained, and the credit of the Government used only for the needs of the Government beyond what can be raised from the taxpayers without unduly curtailing consumption or impairing capital.
—Philadelphia Record.

Merely a Rumor.
No great amount of credence will be placed in the report sent out from Laredo that it is Mexico's aim to make war against this country. Carranza's dome may not shine as iridescently as that of a college professor, but he ought to know too much to tackle Uncle Sam when he cannot even hand a wallop to Villa.
—Philadelphia Telegraph.

Look Back 50 Years.
Most people seem to think that this war will end as soon as we get into it—or at any rate, before we have a chance to do any real fighting. It is a pity that such people can't remember back to when the north was going to lick the south in "sixty days."

A HERO OF THE TRENCHES

GREATER YIELD PER ACRE

THE CAT.

(By DR. EUGENE SWOPE.)

Of all domesticated animals none have equal opportunities with the house cat as carriers and distributors of diseases, especially to children. All domesticated animals may become distributors of diseases. Even fowls and pigeons have been found guilty, but by reason of its particular relation to man, the cat is in position to head the list as a disseminator of diseases. Rodents are justly guilty as distributors of disease germs but they cannot equal the cat.

The house cat greatly exceeds all other domesticated animals in numbers, and is much less under control than others. In too many houses it is allowed to enter the sleeping apartments, kitchens and living rooms, ad libitum. There is no other animal that is likely to come in contact with milk.

The cat's small size enables it to creep into filthy places where most dogs cannot enter. Its habits of pawing over garbage and manure and of rolling in dirt, all afford opportunities for the spread of infectious matter to a greater extent than do the habits of any other pet; particularly as it comes so commonly into close contact with the mouths and nostrils of children. Scientific investigation of cats in the biological laboratory of Clark University, showed that practically every cat that comes into the laboratory was diseased. Almost all had catarrh of the nasal passages, the sinuses being filled with pus. Tubercular lungs were common.

Dr. V. A. Moore of the Bureau of Animal Industry, in studying bacteria in the air passages of animals found that ninety per cent of all cats contain bacteria in the upper air passages, all more or less possessing pathogenic (diseased) or septic (poisonous) properties. He found also the uniform presence of the swine plague group of bacteria in the normal saliva of cats.

Science and common sense plainly indicate that Health Boards everywhere should join with the bird protectionist in a campaign against superfluous cats, by the same practical method that has been applied to the dog, namely taxation. To license cats and enforce the law as well as it is enforced against the dog, would within twelve months, so reduce the numbers of cats that the spread of contagious diseases would be greatly lessened. Much undesirable midnight music on the back fence would be eliminated, and there would be far more birds in our trees to sing by day, the joyful music that makes the heart thrill.

Friends, let us have fewer sick children, fewer back fence duets in the wee small hours and more sunrise anthems.

If You Want Beautiful Hair

Do not use cheap soap or cheaply prepared shampoos if you want to keep your scalp clean and the hair soft and beautiful.

Use Kreamol Shampoo

A small amount, only one or two teaspoonfuls will cleanse the hair and scalp thoroughly.

Simply moisten the hair with water, rub in a little of Kreamol, massage well and then rinse in clean water. The hair dries quickly and evenly, and is fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and removes the dust, dirt and dandruff.

Kreamol makes an abundance of rich, creamy lather

It brings out the life and luster of the hair and keeps it soft and luxuriant.

You can get Kreamol at almost any drug store. A 50-cent bottle should last a family many weeks. Get a bottle of Kreamol today and try it. You will be more than pleased.

A Boring Process.
Legs and bones of lamb and mutton are the meats ordinarily boned. The butcher will do it, but if it must be done at home wipe the meat with a sharp knife scrape the meat from the bone, being careful not to cut through the skin.

To bone birds, chickens or turkeys, select undrawn birds, with head and feet left on. Remove pin feathers and singe. Draw tendons from legs by making an incision just below the knee joint, and with a strong skewer draw the tendons out one at a time. Loosen the skin near the feet and cut off the feet. Make an incision through the skin from the neck to the tail the entire length of the backbone. Scrape the flesh from the bones until the shoulder blade is found, then scraping around the wing joint. Scrape down the backbone to the thigh, then around the second joint and leg, cutting tendons when necessary. When one side of backbone is boned, bone the other, then remove flesh from breastbone on either side of bird. When flesh is all separated from bone discard carcass, wipe flesh and skin and arrange in original shape. The birds may be seasoned and broiled or stuffed, served into shape and steamed.

Macaroni and Cheese.
Cook macaroni in boiling water until it becomes tender, salted to taste. Drain off water, make a white sauce from butter, flour, milk and seasoning. Add macaroni to white sauce, also grated cheese to taste. Pour into buttered baking pan, cover top with bread crumbs and bake until crumbs become a golden brown. This makes a delicious dish when served piping hot.

Improvised Ice Chip.
Many people do not know that by taking an ordinary sewing needle they can chip ice from a large cake without breaking the large piece too much. Tap the needle with a thimble or small tack hammer and the ice will break off into small pieces.

Mrs. Clarissa Caldwell.
Mrs. Clarissa Eliza Caldwell, wife of Mr. Joseph A. Caldwell, died at the home of her daughter, Mrs. C. R. Schuebel of Pleasant township, at 11 o'clock last Thursday night of diseases incident to old age.

Mrs. Caldwell, who was born June 6, 1839, is survived by her husband, the daughter named, and one son, Mr. Joseph M. Caldwell. Four grandchildren also survive.

Mrs. Caldwell was a former resident of Newark.

J. B. Sinsabaugh.
J. B. Sinsabaugh, aged 76 years, died at his home in St. Louisville, Wednesday afternoon at 4:30 o'clock, after an illness of five days. He is survived by one son, F. B. Sinsabaugh of St. Louisville, and five grand-

children, also one brother, James Sinsabaugh of Utica.

The funeral services will be held on Friday afternoon at 2:30 o'clock at the Lutheran church, and the burial will be made in the St. Louisville cemetery.

Mr. Sinsabaugh, son of Rev. George and Elizabeth Sinsabaugh, was born in Fairfield county, March 21, 1841. He had lived with the family of his son Fred for a number of years. He was actively engaged in business for about 27 years and was widely known for his many sterling qualities of character. He was united in marriage with Lucinda J. McDaniel, December 23, 1868, who died August 25, 1896. Two children were born unto them, G. B. Sinsabaugh, deceased, and F. B. Sinsabaugh, who survives. He also leaves five grand children.

Mr. Sinsabaugh was for many years agent for the B. & O. at St. Louisville. He was also captain of the guards in the Ohio Penitentiary from 1886 to 1890 under Governor Frazier. He was a veteran of the civil war, having enlisted at Zanesville, August 4, 1862, as a private in Co. G, 97th regiment. He saw many hardships of the army service and was actively engaged in the battles of Perryville, Ky., in October, 1862. Also Orchard Knob, Siege of Chattanooga, Lookout Mountain, Missionary Ridge, Resacca and Kennesaw Mountain, Ga. He was severely wounded at Kennesaw Mountain and also at the Battle of Mission Ridge. He was honorably discharged Nov. 23, 1864, at Columbus, by reason of wounds received in action. He was an honored member of Chancell Post, G. A. R. at Utica. He was a typical American who risked all and went forward at the call of the nation in defense of his country in the direst time of need.

Treatment for Shoulders.
Pimples shoulders are indeed a blight to beauty.

It is very probable that rich food and too little drinking water is the cause. Plenty of water, both internal and external, and an hour's exercise each day in the open air, will help you in this crusade for presentable shoulders.

An external treatment for shoulders, made unsightly by eruptions, consists in covering each pimple at night with some good camphorice cream.

As the cream will rub off during the night, unless covered with a cloth, it would be well for you to swathe your shoulders in thin cheese cloth. Neet this last bit of advice and your labor in the cause of beauty will be wasted, and your bed linen much the worse for the experiment.

This simple treatment, if given every night for several weeks, will be the means of causing the obnoxious red spots to disappear.

Our Boys and Girls

"Let not the sun go down on your anger," is one of the firm beliefs a fond mother has impressed on her little ones. From babyhood her little folks have been encouraged to settle each day's accounts before bedtime and then sink quietly into refreshing sleep.

Indeed, so fixed has this teaching become in their childish minds that it is extremely easy to forgive the playmates who have wronged them. In cases where other children impose upon them they are urged to let them alone, but in the little petty cares of the child world the slate is wiped clean every night.

By all means teach the boys and girls that it is noble and just and kind to forgive. They may be imposed upon occasionally by other children, but that is nothing compared with a clean record every day. There is real joy in forgiving, but many never experience the sensation.

The World War a Year Ago

Today—April 12.

Austrians in great force attacked Italian positions in the Pizzo basin, Trentino, and were repulsed, according to Italian report. Italians recaptured position on Monte Sponone which the Austrians captured on the 11th.

Great Britain replied to the American protest against the seizure of thirty-eight Germans, Austrians and Turks on the American steamer China, near Shanghai, maintaining that those seized were plotting against British authority.

Two Years Ago Today.

French attacks sprung on wide front east of Verdun and in Alsace were repulsed.

Dandruff Soon

Ruins The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

HOME GARDENS

With Planning Much Food May Be Produced in Small Space.

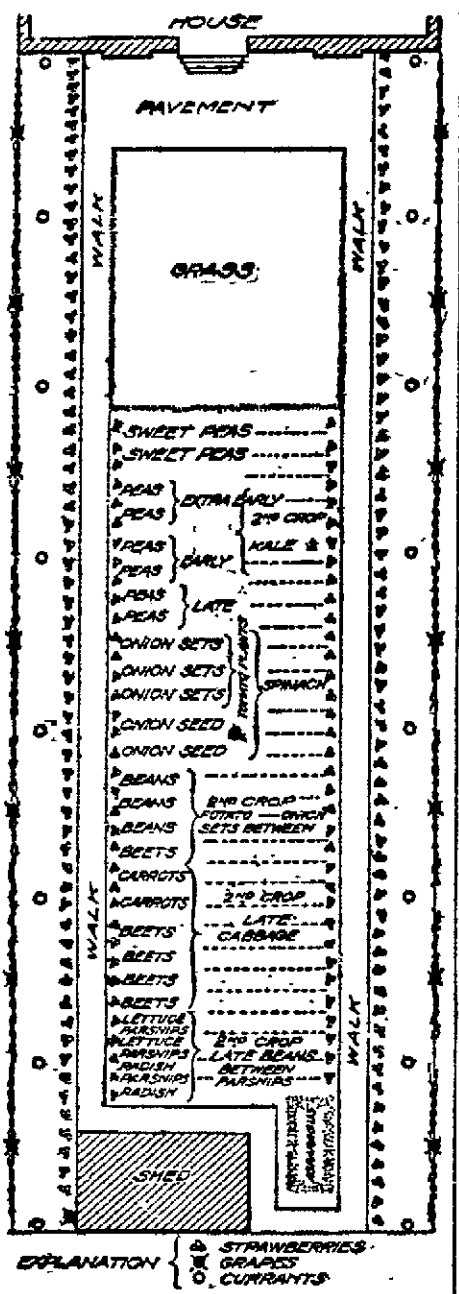

MAKING VEGETABLE PLOTS.

Just What Vegetables to Grow Depends Upon the Individual Tastes of the Family—Can Be Kept Supplied With Seasonable Fresh Garden Truck.

(Prepared by United States department of agriculture.)

A little forethought will enable a comparatively small tract of land to supply the average family with fresh vegetables throughout the growing season, say specialists in the United States department of agriculture. Most owners of small gardens are content to raise a single crop on each plot of land at their disposal. It is quite possible, however, to grow two or three crops in one season, and if these are properly selected the home grown produce will be both better and cheaper than any that can be purchased on the market.

Just what vegetables are to be grown depends, of course, upon the individual

PLANS FOR A SMALL GARDEN.

In this plan all the vegetables named are planted in rows across from the inside later rows of strawberries. As rapidly as each kind of peas matures and the crop is over, kale is planted in its place. The ground to be used for tomatoes is first planted with onion sets, and these onions are used as rapidly as needed. When the time comes to set out the tomato some of the onions are dug to make space for the tomato plants. When the tomato crop is over the ground is occupied by spinach as the third crop. Spinach is also planted as soon as the bulb onions from the side are gathered. The beans, carrots and peas are succeeded by late cabbage, and between the rows of late cabbage "potato" sets are planted. Late beans are planted between the rows of parsnips after the radishes and lettuce have been gathered.

tastes of the family. In general it may be said, however, that the aim of the home gardener should be to raise vegetables in which freshness is an important quality. Peas and string or lima beans, for example, lose much if they are not cooked almost immediately after they are picked.

If the small garden plot, however, is to be made to bring the maximum returns in economy and pleasure to the owner every available foot of it must be made to work continuously. It can be accomplished only by careful planning, and it is recommended, therefore, that amateur gardeners draw up in advance a complete layout for their garden. A typical plan of this character is shown in the diagram above. On the plan the gardener should indicate the date when each of his projected crops is to be planted. No more space should be allotted to each than is needed to furnish a sufficient quantity of the vegetable for the family consumption or for local sale. In many cases also space should be left between the rows for the inter-planting of later crops and for easy cultivation. Plants which make a high growth and cause heavy shade should not be located where they will interfere with sun loving small plants. Perennials, too, such as rhubarb and asparagus, which are not cultivated, should not be grown among plants which call for tillage.

If a garden is planned in this way and the scheme carried out the plan should be kept for use the following year, with notes of the success or failure of the different items in it. For example, if too much or too little of any vegetable was grown this fact should be recorded. It is not desirable, however, to follow too closely the same plan in succeeding years. The same kind of vegetables should not be grown twice, if this can be avoided, in the same part of the garden.

Some leather may no longer be made of hides, but the banana skin still makes the best slipper.

ARE YOU SPENDING OR SAVING?

Any fool is a good spender, but it takes a wise man to save money.

That there are more fools than wise men is proved by the fact that one-tenth of all the people who die in the United States are buried in pauper's graves.

With a population of 100,000,000 there are 10,000,000 people in the United States who would be hungry in 10 days after losing their jobs.

There are 3,000,000 men with steady jobs and little children dependent on them who have not saved enough to feed their own babies for two weeks.

You can't lift yourself by tugging at your boot straps. Nor can you make much headway in providing for the future if you rely merely upon your salary.

Invest your earnings in Garden Place Addition on Cedar Street Pike, which is just out of the city, within ten minutes walk of city car line.

Have six houses about completed. These houses will be modern bungalows of five rooms, sleeping porch, bath, electric lights, cistern and city water, cellar under the entire house, facing on Garden avenue.

Garden Avenue is forty feet wide, will have cement walks, with a row of elm trees on each side.

One and a half acre lots, the right size for garden and poultry raising, out in the pure air where the sun shines.

IMPORTANT TO INCREASE ACREAGE OF FOOD CROPS

Washington, April 12.—The importance of increasing the acreage of food crops because of war conditions is being fully realized and acted upon in nearly all sections of the country. Section directors of the weather bureau in their reports on weather and crop conditions for the week ending yesterday noted these facts. They say farm work was delayed by cold and wet weather over a large portion of the country and vegetation is backward in most districts.

Better conditions for winter wheat were reported in the central and western parts of the principal wheat belt. In Kansas wheat is very poor, further damage being reported in the west and central parts, although some improvements was shown in the northeastern part. Many fields have been plowed up in Nebraska.

PLANTING SPINACH.

A Favorite Crop Grown For Greens, and All Gardeners Should Plant It.

Spinach is perhaps the most favorite crop grown for greens, and every home gardener should plant it. Around Norfolk, Va., and to the south of it large areas are cut at any time through the winter when the fields are not frozen or covered with snow. North of the latitude of Norfolk spinach can be planted in the autumn and carried over the winter by mulching with straw or leaves. The seed should be sown in drills one foot apart at the rate of one ounce to 100 feet of row, or ten to twelve pounds per acre. A rich loam is required for success.

There is perhaps no other garden crop which gives as much satisfaction as spinach. Ordinarily it occupies the land during the autumn and winter and does not interfere therefore with the production of summer vegetables. Three or four ounces of seed planted in the autumn after the summer crop has been harvested will produce an abundance of greens for the average family during the late autumn and early spring. In gathering spinach the entire plant is removed instead of merely cutting off the leaves. By selecting the larger plants first the smaller or later ones are given room to develop. This method does away with the necessity of thinning.

When some people parade their virtues, they have an idea the whole world is on the reviewing stand.

KEEP YOUR FLOWERS.

Bloom May Be Prolonged by Following These Tips.

Some women seem to have a magic way with flowers. They can throw in seed and blooms will spring up. They can wear a corsage bouquet a whole evening and never have it wilt, and, as for cut flowers, they can keep them for weeks, if seems. Some one has said that it is the true flower lover who has such luck, and of course a woman must love flowers to want to have them and keep them, but sometimes, in spite of the best intentions, they do not know how to give cut flowers long life.

There are several secret methods which flower lovers practice to keep the cut blooms fresh beyond the usual length of time. Every one knows that to cut off a bit of the stems of flowers every day before immersing them in fresh water will prolong their life. Every one does not know, however, that with woody stems it is a good plan to peel or cut away part of the hard bark so that the stem can absorb moisture.

A night bath for sturdy blooms is refreshing. Throw them, flowers and all, into a basin of clean water.

The hot water bath will bring apparently wilted blooms to life. Place the cut stems of the flowers in a jar of steaming hot water and allow them to remain there an hour or so until the water has cooled off. If the flowers are very wilted a lump of camphor in the hot water will sometimes react upon them quicker. Salt water will revive some flowers more quickly than anything else.

A corsage bouquet which cannot be untied can be sprinkled with water and kept in the icebox overnight.

A florist gives the following way of keeping blooming flowers for several weeks: Stick the stalks of the flowers in several inches of damp sand which has been placed in a bowl. Cover them with a glass jar or tumbler and move to a cool place where the sun will not reach them.

Flowers benefit by massage. The Japanese find this a successful way of training blossoms with soft stems in the way they should go.

Never keep flowers in a warm room overnight or in the bedroom either.

Tender Meats.

Quick cooking will not make steak tender; it must be tender in the beginning. But tough meat can be made tender by cooking it very gently in a gravy for an hour or more. By browning it first we give it a good flavor and have seared the surface so that more of the juice will be retained than if raw meat were used. Some scraps of fat are browned and an onion sliced and fried in the fat, a tablespoonful of flour is added, and when it is mixed smoothly with the fat a cupful of water is put in. The meat is put in the gravy and left covered on the back of the stove to cook slowly. Later carrot and turnip cut in cubes are added, and twenty minutes before serving the potatoes are put in. These have been pared, quartered and left in cold water for thirty minutes.

To Mend Holes In Graniteware.

Take a piece of putty until it is soft. Work a piece large enough to cover the hole and put it over both inside and out. Place the utensil in a slow oven and bake until the putty is a deep brown color. The utensil may then be used the same as when new. Even a teacup may be mended and used as before.

You never can tell. Many a man is always in hot water without ever acquiring a clean record.

I know Resinol

will heal this rash

I never worry if I have a little rash or other eruption break out—I just put on a bit of Resinol Ointment. That takes out the itching and burning instantly, and soon clears the trouble away. I learned of Resinol Ointment through my doctor prescribing it for my brother. Tom had been almost frantic with eczema for months but that ointment healed his skin like magic.

Resinol Ointment is sold by all druggists.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

DON'T SUFFER WITH NEURALGIA

Musterole Gives Delicious Comfort

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on the temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster, and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia). It is always dependable.

ALHAMBRA.
"The Web of Desire" will weave its spell over the people of the city tonight as upon that date this thrilling sensational drama of married life in the West and in the East will be shown at the Alhambra theater with Miss Ethel Clayton as the star supported by Rockcliffe Fellows.

Members of the cast who are playing with Rockcliffe in "The Dummy," a famous Players picture in which he is starring, on the Paramount program at the Alhambra have been having a great deal of fun at the good natured licks expense in the picture. He is supposed to be a messenger boy exceedingly fond of detective stories of the Jesse James and Diamond Dick sort. Never having read these masterpieces Jack Rockcliffe thought it his duty for the proper portrayal of the part to familiarize himself with them and consequently sent a boy out for an armful of them.

CELE.
"War Brides" latest picture "The Measure of a Man" has been booked for showing tomorrow afternoon and evening. "Splendid direction by Jake Conway has made of 'The Measure of a Man' a story of gripping heart interest and one that is destined to win much favor among theatergoers."—Frank J. Pierce Jr. in the New York Morning Telegraph.

AUDITORIUM.
"War Brides" the first production by the Herbert Brenon Film Corporation for Selznick-Pictures will be seen at the Auditorium theater today. This photodrama will introduce to moving picture patrons a new star, Nazimova. Well known on the stage, she is now making her debut on the screen in a film version of the play, by Marion Craig Wentworth in which she made a sensational success in vaudeville. She had refused all offers until she saw "A Daughter of the Gods," which Brenon wrote and directed, and was so charmed by the work that she signed a contract to appear under his direction.

"War Brides" will be seen at the Auditorium today, Friday and Saturday. So that none will miss "Patria" with Mrs. Vernon Castle, Mrs. Fernberg will screen the second episode today together with "War Brides."

"Patria." The Birmingham Herald says:—"Patria" is heralded as the greatest serial of the age, with the best known woman in America as the star, and backed by the greatest advertising and publicity campaign ever launched. The first episode has drawn and delighted thousands at the Rialto. It is indeed the serial supreme, as claimed by its producers.

The second episode of this wonderful serial will be screened again today, in connection with "War Brides."

"The Blue Streak." William Nigh the new director who has joined William Fox's ever-growing band of screen generals, is as wide as the characters in his pictures. Fear is a thing he has never known. Mr. Nigh co-stars with Violet Palmer in "The Blue Streak," together with Charlie Chaplin in "The Count" will be seen Sunday at the Auditorium.

"Tango Queens." The new "Tango Queens" revised up to date, and just what you want will be the attraction at the Auditorium theater Monday afternoon.

The new "Tango Queens" come heralded as the greatest offering in burlesque and with an excellent cast headed

ed by that ever popular Irish comedian Tom Coyne. No needs no introduction and Ethel Green the tango soubrette this will be the first appearance of this popular little lady here.

The production is said to be the most elaborate ever presented with a burlesque offering, while the costumes are most gorgeous. The illuminated runway is a big feature. Seats read: Friday:

One hundred and fifty girls dancing in diaphanous robes.

That is just one of the startling and strikingly beautiful scenes in "Patria" the seven act art drama soon to be presented at the Auditorium theater.

This regiment of dancers, employed at great expense and effort after canvases of all the cities of the western coast, was trained at the Santa Barbara studio where "Patria" was filmed by Miss Georgia Driscoll. Miss Driscoll was formerly a pupil of Ruth St. Denis famed dancer. Later Miss Driscoll appeared in the St. Denis company and attained an independent success.

STOPS ANY COLD IN A FEW HOURS

"Pape's Cold Compound" Opens
Clogged nose and Head and
Ends Grippe.

Relief comes instantly.
A dose taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limb.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.—Advt.

You brush your teeth regularly—

—why, then, have
you tooth troubles?

After brushing them tonight, feel along the hidden rear surfaces of your teeth. Don't be surprised to find tartar deposits and threads of food still lurking in the crevices.

Your dentifrice does not FULLY CLEAN!

SENRECO, "a dentist's formula," fully cleans and also is particularly destructive to disease germs.

Tartar, as you know, is simply a nest of germ-infested matter. It is the favorite home of the germ which causes pyorrhea. In this disease the gums get soft, sore and bleed readily. Later you may not only lose your teeth, but the infection can spread through the blood and cause serious bodily ailments.

Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c.

RHEUMATISM GONE! CRUTCHES THROWN AWAY!

No matter how badly you suffer with rheumatism—even if you are crippled and have to use crutches—you can banish the pain and ache; you can get rid of the swelling, limber your stiff joints and feel like a new person.

Dr. Whitehall's Rheumatic Remedy has produced great results for rheumatic sufferers during the 26 years it has been continuously on the market. Thousands of men and women have taken it and banished lumbago, stiff, swollen joints and muscles, crick in the back, shooting pains, and other forms of this terrible affliction. This excellent remedy is now sold by all druggists at 50c a package, and any man or woman afflicted with any form of rheumatism should not fail to get a package of Dr. Whitehall's Rheumatic Remedy without delay, as it may be the means of quickly ridding the system of the trouble.

ARE BATHS NECESSARY?

This looks like a foolish question in this enlightened age, but there are nearly a million Americans who knew nothing of Internal Bathing a few years ago and are now eager to testify that they are fully as essential to health as External Baths.

By a purely natural process of properly using warm water after the "E. J. Cascard" removes ALL the poisonous waste from the Lower Intestines, which physicians agree is the cause of 95 per cent. of all human ailments.

It instantly relieves constipation, properly regulates the bowels and prevents all the dragging down which ill-humors and Liver Troubles always create.

Miss Mary A. Brunner, of Columbus, Ohio, writes: "Am still more than delighted with your treatment. Am only using it twice a week now and feeling fine. Again thanking you for what your wonderful treatment has done for me, I remain, gratefully yours—"

The Hudson Avenue Pharmacy, 1222 Hudson Avenue, corner Oak Street, Newark, O., have filled a tremendous demand for "E. J. Cascard" in the past few years, and will show and explain it to you on request. A free and interesting booklet on Internal Bathing, "Why Man of To-day is Only 25 per Cent Efficient," can also be obtained for the asking.

NEWARK WOMAN ASKS PLACE UPON U. S. WAR VESSEL

Believing that she can fill a position of a clerical nature on one of Uncle Sam's warships, and thus release a man who can be put to tasks which she cannot do, Mrs. Mary M. Miller, probation officer in the Juvenile court, has written a letter to Congressman Ashbrook, asking permission to enlist in the naval service of her country.

"I am old enough," says Mrs. Miller's letter, "so if I go down in the

MRS. M. MILLER, ocean, the years that are cut off would be of little value to the country."

She lists five sensible reasons why she believes she should be accepted.

Mrs. Miller's letter to Congressman Ashbrook follows:

I wish to volunteer my services to the government as a clerk for duty on one of our war ships.

I think you know that my health and strength are equal to the task and that I am capable of filling such an appointment, and I can urge good reasons why I should be taken for the service rather than some others.

I have no one now dependent upon me.

I have received more from the government than many others.

If I take the place of a man, it releases that man for duty which I cannot perform.

I am old enough so if I go down in the ocean, the years that are cut off would be of little value to the country.

Women under 40 should not be permitted to go into danger so long as there are older women qualified to do the work.

MARY M. MILLER

In a letter to The Advocate, Congressman Ashbrook says:

I am receiving scores of letters from patriotic citizens in the district offering their services to their country, but in my humble judgment, the proffer of Mary M. Miller reveals more true unselfishness and a higher degree of patriotism than any by me received. The Congresswoman faltered and voted No, and I have no criticism to make, but here is one woman whose patriotic proposal ought to be an inspiration to every young man in Licking County to be willing to do at least something for his country in this great crisis. Would that we had more Mary M. Millers.

DEARTH OF FARM LABOR FEARED AS CALL COMES

Washington, April 12.—By a resolution introduced yesterday Senator Frelinghuysen of New Jersey, the council of National defense was requested to consider the advisability of establishing a commissioner of agricultural defense who should assemble all national, state and private agencies and mobilize farm labor for the production of larger crops.

"You can turn out a soldier in a year," said Senator Frelinghuysen, "but it takes five years to turn out a competent farm hand. Already the best farm hands are preparing to enlist."

MT. VERNON C. OF C. BACKS "VOCATION ON FARM" PLAN

Mt. Vernon, April 12.—"Spend your vacation on the farm" is the slogan adopted by the Chamber of Commerce here yesterday afternoon in an effort to have all men in Mt. Vernon pledge themselves to donate their vacation time to farmers during the harvest period in order to increase the production of food. The plan was proposed by P. C. Zemer, superintendent of schools, and was endorsed by 100 members of the chamber.

REAL HAIR SAVER

If You Would Avoid Dandruff Itching Scalp and Baldness, Use Parisian Sage.

What's the use of being bald? What's the sense in deliberately allowing your hair to thin out or become gray? You don't want to look old before your time. Premature baldness and gray hair are largely due to hair neglect while a frequent scalp massage with the PARISIAN SAGE (liquid form) not only saves the hair but helps it to retain its natural color and lustre. To keep youthful looking you must give the hair proper care. PARISIAN SAGE is a scientific preparation that supplies all hair needs—it's just what you want.

Why not get a large bottle from W. A. Zimmer today? It's not expensive and money refunded if it does not stimulate new hair growth, cure dandruff, stop falling hair or itching scalp. It will surely make your hair appear more abundant, bright and beautiful. Be sure you get the genuine PARISIAN SAGE for this is free from sickness, entirely harmless and is a most refreshing and delicately perfumed hair invigorator. Any druggist can supply you.

THEY WERE RUN DOWN.

How often we hear it said of a man or woman that "they were run down in health" which accounts for their present sickness. For that reason it is important that when you find you tire easily, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building properties in Tono-Nerve. PRINTING ERROR INVALIDATES LAW FOR STATE ROADS

(ASSOCIATED PRESS TELEGRAM)
Columbus, April 12.—Governor Cox expected to take up with the attorney general's department today the defects discovered in the new highway act passed by the last legislature which are said to have killed the act and leave the highway department without any authority for existence.

The new act repealed the present highway law but through a blunder in printing does not contain the enacting clause for the new law. The new law was not intended to go into effect until June 28. In the meantime the supreme court may be asked to pass upon its validity. If the court cannot validate the act a special session of the general assembly may be necessary, it is said to correct the error in order to save the highway department and permit the carrying out of thousands of dollars worth of contracts for new highways.

GEN. GIBBONS WELL KNOWN HERE, VOUCHES FOR GERMAN

(ASSOCIATED PRESS TELEGRAM)
Little Rock, Ark., April 12.—The report that George Hubman, living at Collegeville, near here, had raised a German flag over his home and announced that it would not be taken down tonight was declared to have been erroneous in a statement issued by J. R. Gibbons, former commander

GEN. J. R. GIBBONS.

of the Arkansas division of the United States confederate veterans. Apparently the only basis for the report, general Gibbons' statement declared, was that a large number of German-Americans living near Collegeville held a celebration and that decorations included a German flag. The flag voluntarily was hauled down, General Gibbons stated. He also declared he would vouch for the loyalty of Mr. Hubman to his adopted country.

General Gibbons is well known in Newark having visited the city last summer with the Arkansas veterans who returned to the 76th regiment here, a battle flag captured during the civil war. Gen. Gibbons and party while in Newark made many friends.

U-BOAT ABANDONS CREW OF SHIP 25 MILES AT SEA

(ASSOCIATED PRESS TELEGRAM)
Washington, April 12.—Details of the sinking of the American unarmed steamer Seward and exposure of thirty-one men including twenty-four Americans in open boats, 25 miles from land in the Mediterranean was received at the state department yesterday from Consul Hurst at Barcelona, Spain. His dispatch, dated April 10, says in part:

"Unarmed steamer Seward of New York with machinery and miscellaneous cargo, New York to Genoa, abandoned after encountering German submarine April 7, 11:45 a. m. some thirty-three miles northwest of north from Vendries, France. At time of encounter submarine fired shell across bow, flying two unlighted signal flags, about one minute later fired second shell over ship. Submarine then disappeared. All on board immediately took to two lifeboats. A bout ten minutes after second shot and when three to four hundred yards from the Seward submarine came to surface and approached lifeboats, captain of Seward ordered on board submarine. After being questioned as to destination of Seward and ships papers, Captain was ordered to make for shore about 25 miles distant with his two lifeboats. Submarine's crew went on board abandoned ship. Seward's party does not know whether Seward was destroyed or not, although chief engineer states he heard faintly two explosions after boats out of sight of Seward. Submarine flew German flag. Of Seward's party twenty-four claim American citizenship."

WHEN bread is made into fresh, hot-buttered toast, it has more flavor.

Toasting puts more flavor into most good things—seals it in, so to speak.

And toasting puts more flavor into Lucky Strike cigarettes; the tobacco—it's toasted.

Better still it's Burley tobacco—toasted. Lucky Strike is the real Burley cigarette—something absolutely new in cigarette flavor.

This toasting not only gives Lucky Strike cigarettes flavor but keeps it there—seals it in. They're always fresh.

And because everyone has been wanting real Burley cigarettes, everyone has been buying them—look at all the Lucky Strike smoke circles.

Have you tried the famous "toasted cigarette"; begin today.

The town hall of St. Quentin, used by Germans as their headquarters.

The French city of St. Quentin, one of the important pivots of the famous "Hindenburg line," appears certain to fall into the hands of the victorious British forces. The part of the city shown here is now in flames. All the fire buildings of the town will of course be ruined by the Germans if they are compelled to evacuate.

WOODMEN OF WORLD CLOSE CONVENTION; PLEASED WITH CITY

A band concert was given from the balcony of the Warden Hotel by the Buckeye Band last evening from 6:45 until 7:30, under the auspices of the local order of Woodmen of the World, for the entertainment of the delegates to the state convention which closed a two days' session in this city late yesterday afternoon.

After the concert a parade was given around the square, led by the band and followed by the state officers in autos, a delegation of horsemen, uniformed drill team and several hundred members carrying flags. Red fire was burned by the business men along the line of march. Woodmen of the World cheered for Newark as they marched through the streets, calling out "What's the matter with Newark?" and then answering, "She's All Right."

After the parade the remaining delegation was entertained at various places over the city by local members of the order and the visitors all expressed themselves as having had a very good time during their stay in this city and expressed a desire to return on some future occasion.

BARNUM ADVANCE BEAT OPPOSITION WITH SHOW BILLS

J. E. Lynch and H. J. Steele, advance representatives of the Barnum & Bailey show were in the city last evening, guests of Manager Geo. M. Fenberg at the Auditorium. They are from Decatur, Ill., where Mr. Fenberg formerly managed the Majestic theatre. The scout car of the circus is in the city today advertising the big show which will appear here Saturday, June 16. The car comes in early on account of opposition as the State-Photo show will exhibit here early in the summer also. It is possible that another big tented aggregation may also visit the city.

UTICA GLASS FACTORIES PATRIOTIC CELEBRATION

Two flags will be floated from poles erected at the two gates of the two glass factories at 11th Saturday afternoon. There will be a parade at two o'clock, headed by the famous old Buckeye band of this city and the march will be taken to the factories where a program of appropriate exercises will be carried out during which time Old Glory will be floated to the breeze. Col. Robert Dold in full regalia will lead the musicians and the raising promises to be a gala event.

BOTTLE PLANT EMPLOYES TO RAISE FLAG SUNDAY

There will be a flag raising with a special program at the plant of the American Bottle Company Sunday afternoon at one o'clock. All employees of the company will assemble on the west side of the public square to form a line of march for the parade, with the following formation: Drum Corps, Old Guards, Little Girls with Flag, Speakers in Autos, Buckeye Band, A. B. Co. Employees. The line of march will be south on Third street around the square, north on Hudson avenue to North street, east on North street to Case avenue, south on Case avenue to the place of the flag raising.

Twelve little girls will raise the flag to its position on the pole while everyone present will be requested to join in singing the "Star Spangled Banner," accompanied by the Buckeye band. Then will follow an address by Atty. Chas. L. Flory, a song by a quartette and an address by Atty. Chas. W. Montgomery. In conclusion all will sing "America," with band accompaniment.

The public is cordially invited to be present at the raising and participate in this most patriotic affair. The men of the American Bottle Company are all of one turn of mind, to stand by their country and their president.

FLINT GLASS WORKERS PLEDGE LOYAL SUPPORT

The following resolution was adopted by local union, No. 30 A. F. G. W. U.:

Whereas, The United States of America in defense of its sacred and historic right to life and Liberty has been forced into the great world war by the ruthless methods of the Imperial German Government, and

Whereas, The Congress has declared that a state of war does exist between the United States and Germany; therefore be it

Resolved, That the members of Local Union No. 34 American Flint Glass Workers Union in regular meeting assembled appreciating the gravity of the crisis confronting the Nation and the heavy burden of responsibility resting upon our Chief Executive hereby pledge to President Wilson our loyal support and co-operation in upholding the rights and maintaining the honor of the United States of America.

THROWN FROM GAS WELL DERRICK MAN DIES OF INJURIES

John Strawn, aged 28 years and son of Mr. and Mrs. J. R. Strawn, of near Marengo on the Toledo & Ohio Central railroad, met death on the Jones farm near the Five Point schoolhouse west of Granville yesterday afternoon about 3:30 o'clock while engaged with four others in pulling the tubing from an abandoned gas well.

A rigging had been erected and a duplex platform built with three of the men on one side and two on the other. Large tongs are used in such work and the tubing is pulled by hand. While pulling with all their strength something suddenly gave way, the tubing probably breaking some distance below the top of the ground and three of the men were precipitated from the platform. Otto Thorpe and W. E. Lake alighting within the platform supports while Strawn was thrown out some distance, alighting on his head.

Arthur Patton, a fellow laborer, ran to him and found him unconscious. A physician was summoned but the injured man died within fifteen minutes.

It was not determined what injury caused Strawn's death. He may have been struck by one of the tools used or the fall may have caused a fractured skull or a broken neck.

The body was carried across the field to the home of Mrs. J. H. Drown of the Granville and Columbus pike and Criss Brothers were notified and removed the body to the home of the dead man's sister, a Mrs. Wilson, residing at Hebron. No arrangements have been made for the funeral.

Mr. Strawn was an employee of the A. H. Heisey Company of this city and had been with that company for seven or eight years, being employed in the gas fields in this county controlled by the Heisey Company.

SAVE YOUR HAIR! 25 CENT BOTTLE STOPS DANDRUFF

Every bit of Dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing feverishness and itching of the scalp, which if not remedied causes the hair roots to shrivel, loosen and die—then the hair falls out fast. A little Danderine tonight—now—anytime—will save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, and incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

BROMLEY SERVICES

(Continued From Page 1)
of every Christian to rise in his might, push aside our pacifists and "go to it."

"The European war is not an indication of the collapse of Christianity, as has been claimed. It is the collapse of a system which has left Christ out of its schedule. Christianity has not yet been given a fair chance."

Again turning back to his subject, Dr. Bromley said that there was a difference between fun and happiness. Fun can be bought, he said, in any movie for a dime but it all leaks out before you get home. Happiness comes only to the true Christian. He declared that most of the sins which put men in the class of the unsaved, have been pronounced by the wisest men as the most dangerous.

PRAYERS FOR NATION.

At Wednesday night's meeting, Chorister Wicand called attention to Governor Cox's proclamation setting aside Wednesday night for a night of prayer for the nation. The entire audience was asked to bow in a few moments of silent prayer. The period was concluded by a fervent invocation by Rev. Mr. Shaddock.

MISS DITZELL'S LECTURE.

Last night after the regular service at the Bromley Evangelistic tabernacle the first meeting of those persons interested in personal work was held on the platform and Miss Gladys Ditzell, who has charge of the personal work in the campaign, delivered an address to the class.

Miss Ditzell will see the personal workers every night each week now and give them a regular academic training in personal work.

"We cannot all be preachers but every Christian should be a soul winner," said Miss Ditzell in opening her talk. "We should all be soul winners because Jesus commanded it as found in Luke, 22, 32. Revivalism is fishing with a net and personal work is using the hook and line method. The more hooks you let down into the deep the more fish you are bound to catch."

The lecture was illustrated with the aid of a blackboard.

SHOP MEETINGS.

There is a lot of enthusiasm being displayed in the shop meetings being held in the shops about town by the members of the Bromley Evangelistic party. Yesterday a meeting was held in the B. & O. shops and O. W. Shannon spoke. Charles H. Wicand had charge of the singing and the members of the party were accompanied by Revs. A. B. Cox and E. J. Walter. The meeting was a spirited one throughout.

Rev. S. B. Goff spoke in the Rolling Mills yesterday at noon and he was accompanied by Rev. Mr. Lytle. The meeting was well attended also and the men listened in an attentive manner.

Miss Ditzell met the Business Women's Committee yesterday afternoon at the tabernacle and arrangements were made for the lining up of the work for this department.

W. W. Shannon will meet the church officials of all of the co-operating churches this evening at 7 o'clock in the First M. E. church.

Extensive arrangements are being made for the automobile tour to be held tomorrow. At 10 o'clock the members of the Bromley party go to Outville, Pataskala and Etna and Kirkersville.

Curios galore have arrived in a strange box in this town and were addressed to Miss Rose Fetterolf, who will address the boys and girls of Newark at the tabernacle at 2 o'clock on Saturday afternoon. Besides Miss Fetterolf's address on Saturday afternoon brand new songs will be sung by the boys and the girls. C. H. Wicand, the musical director, has songs especially adapted to such services.

A new piano has been placed in the tabernacle. The upright piano that had been used was found entirely inadequate to fill the building with volume and the Fairall Piano company has placed a new French Grand piano at the tabernacle.

No More Stomach Trouble After Taking Fruitola

Feels Ten Years Younger Now
and Enjoys the Best
of Health.

MRS. H. N. HOLBROOK

Mrs. H. N. Holbrook of Arko, Minn., who is seventy years old, has written to the Pinus Laboratories that, thanks to Fruitola and Traxo, she is now very well and feels ten years younger. In her letter, Mrs. Holbrook says: "Fruitola relieved me of quite a large number of gall stones and I immediately began to feel better and have had no more trouble since."

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus Laboratories at Monticello, Ill., and can be purchased in drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alterative that is most effective to rebuild and restore the weakened, rundown system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Ill.
